Thanks for filling in this form: [Project-Based Learning \(PBL\) Report](#)

Here's what was received.

[Edit response](#)

Project-Based Learning (PBL) Report

Spend 5-10 minutes to fill this form.
Before filling this form, keep the following things ready:

- Your day-wise notes of all design thinking questions [Empathise, Define, Ideate, Prototype, Test]
- Screenshots of your innovation
- Screen recordings of your innovation's working model
- Innovation images generated on Day 2 take-home task

This form is to record your thoughts and ideas about the innovations you made as part of IBM SkillsBuild's PBL activity so fill this form honestly and completely.

Your email address ([pavansuvvari41@gmail.com](#)) was recorded when you submitted this form.

Your Full Name *

Suvvari Satyanarayana

Your Email ID (as per IBM SkillsBuild)

pavansuvvari41@gmail.com

Your Mobile Number *

9392853617

College Name *

Acharya Nagarjuna University

Qualification(Degree) *

Btech

Day 1

Design Thinking Process Step 1 & 2: Empathise & Define

*Step 1: Understanding
the Need*

Which problem am I
trying to solve?

*

online shopping producer

Step 2: What is the problem?

The problem I want to solve in one clear sentence

*

[You can try a prompt like this: *"I am ideating a solution for <enter your problem in detail> Convert this problem into a single clear sentence which I can share to an audience"*]

Only one product selling and all product not sell

Why is this problem important to solve?

*

[You can try a prompt like this: *"Draft 1-2 lines on why this problem is important to solve. Support this with evidence using relevant data points"*]

Selling for all my web site products and sell for products

Take-home task

Ask 2-3 people (you can speak to your family members, friends, teachers, trainers) what they think about this problem. Write down surprising or new things you learn below.

*

Trainer

Step 3: Brainstorming solutions

List at least 5 different solutions (wild or realistic):

*

[You can try a prompt like this: "*I am ideating solutions for <enter your problem in detail> Suggest 5 unique solutions for this problem, which I can easily accomplish in 2 days using free, open-source mobile-friendly AI tools*"]

Mobile

Step 4: My favourite solution:

*

Selling my products in online

Step 5: Why am I choosing this solution?

*

Selling in online shopping to customers

Take-home task

Generate the image of your solution and how it will look
(eg: “a bag that charges your phone while you walk”)

Attach the image in this box below:

*

[You can try a prompt like this: “I am ideating a solution for <enter your problem in detail> I have selected a solution which includes <enter your solution description> Generate an image for this solution]

Submitted files

Tools you can use for Day 2

ChatGPT/Perplexity AI:

You can use these tools to compare your solutions and choose the most effective one

*AI Tools you can use
for the take-home task:*

Canva AI/CoPilot

AI/Meta AI: Use these mobile-based tools to generate images for the solution they want to design

Day 3

Design Thinking Process Step 4 & 5: Building & Testing my Prototype

**Step 6: Prototype -
Building my first version**

What will my solution
look like?

[Take inspiration from the
image generated on Day 2 and describe the solution]

*

Chat gpt and ai

What AI tools will I
need to build this?

*

[You can try a prompt like this: *"I am ideating a solution for <enter your problem in detail> I have designed a solution which includes <enter your solution description> What open-source, free AI tools that I can use to build this solution? The tools should be easily available and accessible on my mobile. Do not recommend tools which requires cost or subscription"*]

Build app

Top AI tools I
finally selected to build this solution? [Eg: Claude AI, Grok AI, Chatling AI]

*

Write it in 5 lines as 5 points

Ani generate

**Step 7: Test - Getting
Feedback**

Who did I share my solution with? [You may share it with your trainer, peers or even AI] *

Trainer to share
.....

What positive feedback did I receive?

*

Good product
.....

What feedback did I receive for improvement? *

Selling for more products in online
.....

Take-home task

**Record your solution and test feedback in voice notes.
Upload your voice notes, images and your solution/model on GitHub**

*AI Tools you can use
for Step 6-7:*

**ChatGPT/Perplexity
AI/Claude AI/Canva AI/Chatling AI/Figma AI: You can use these tools to
build solutions/models or mock-up dummy prototypes**

Day 4

Presenting & Reflecting on my Innovation

Step 8: Presenting my Innovation

Final Project Title:

*

Cricket kit

**Key points of
my presentation**

*

[You can try a prompt like this with attachment/screenshot of your solution: *"I am ideating a solution for <enter your problem in detail> I have selected a solution which includes <enter your solution description> I tested the solution with <enter details of who tested your solution> and they gave the following feedback <enter feedback given by the testers> Generate a 1-minute pitch document with following headings: project title, problem statement, my innovation, feedback I received from users, impact of my innovation. Add the attached image in the pitch document"*]

Selling for cricket kit in online shopping

Step 9: Reflections

**What did I enjoy the
most during this project-based learning (PBL) activity?**

*

Yes

Step 9: Reflections

**What was my biggest
challenge during this project-based learning (PBL) activity?**

*

Yes given the project in generate ai to solve the pbl

Upload images of your day-wise notes/responses of all questions *

You can also combine your images into one PDF file and upload
